## B.A.N. | Vehicle Arrest Security Barrier

**PUT A BAN ON**

### WHAT IS A BAN?

The B.A.N. (Bollard Applied Net) is the industry's solution for increasing security and strengthening any fixed or active bollard system. B.A.N. is designed to be a quick security solution that is simple to install and has the ability to be retro-fitted to your existing security equipment.

#### *Portable and lightweight*

Can be rolled up and transported with ease. Each net comes with its own specific duffle bag for easy transportation and storage when not in use.

#### *No Maintenance*

The B.A.N. is made with lightweight, weather-proof material, resulting in no maintenance.

#### *Highly visible*

Made in Safety Yellow, and covered in reflective tape for night-time use.

**INTRUSION**

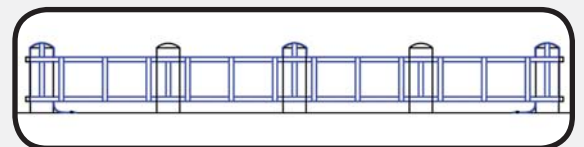

INNOVATION IGNITED

### PRODUCT OVERVIEW

#### *B.A.N. Product Applications*

B.A.N. gives the ability to stop pedestrians and motorcycle traffic between bollards to provide fast and easy perimeter control. With no tools B.A.N. slides over existing bollard systems and shuts down access to secure areas. These benefits have made B.A.N. an ideal security solution for many applications, such as:

- Local and National Parks
- Event Security
- Corporate Facilities
- Airports
- Schools and Universities
- National Monuments
- Museums
- And many more...

*(Shown to fit over multiple bollards to shut down a large area instantly)*

INNOVATION IGNITED

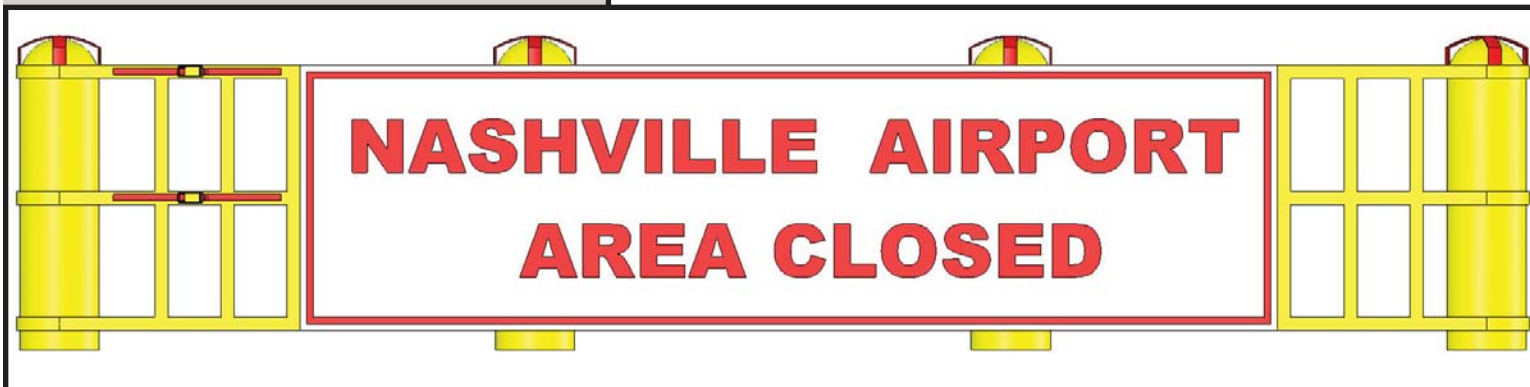

PRODUCT OVERVIEW

Universal Safety Response, Inc.

*Custom Made to fit your needs.*

We can manufacture the B.A.N. to fit your facility needs. Can include custom signage along with your company's name.

*Traffic Control*

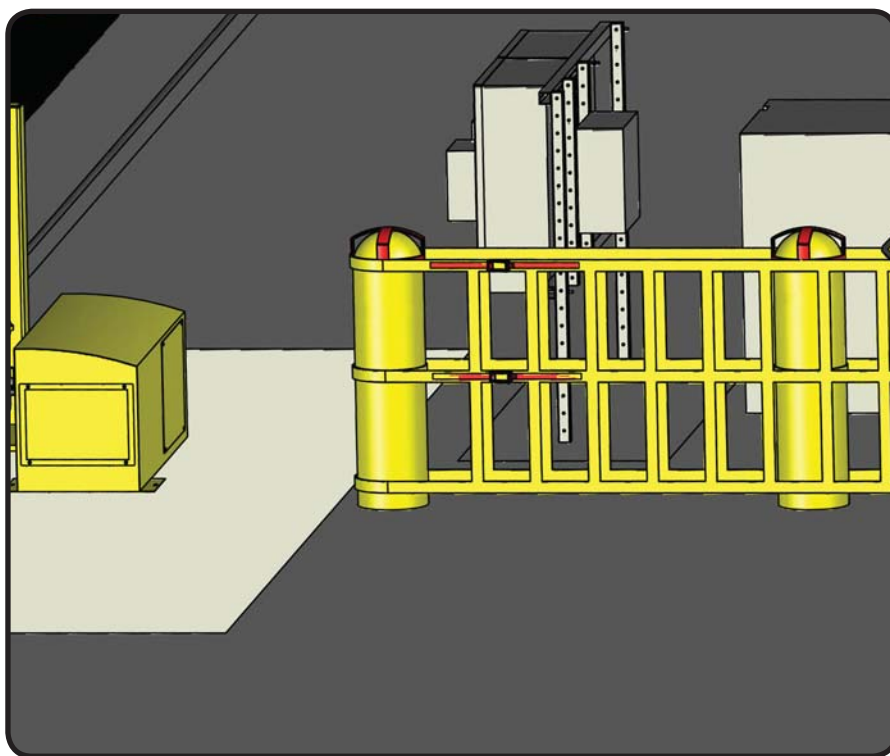

B.A.N. has the ability to control motorcycle and pedestrian traffic by utilizing fixed bollards in an easy, cost effective way at any event keeping off limit areas secure. It is a perfect crowd control solution for special events, parades and more. B.A.N. can also shut down areas between bollard systems to keep pedestrians and cyclist out of facilities after hours.

*Ease of Use*

The reason behind the success of B.A.N. is due to its flexibility. B.A.N. can be rolled up and transported with ease. Each net comes with its own duffle bag for transportation making it travel and storage easy when not in use. For permanent installations B.A.N. can be easily locked creating a fast, simple solution for any bollard system.

*INFORMATION REQUIRED WHEN ORDERING*

Bollard center to center spacing, bollard diameter and number of bollards the net will cover. Delivery within 3-4 weeks.
